COVID-19 Update

July 29, 2020

Marin County COVID-19 Cases, Cumulative

Daily Count of Newly Reported Cases (Positive Results) among Marin County Community Residents by Result Date

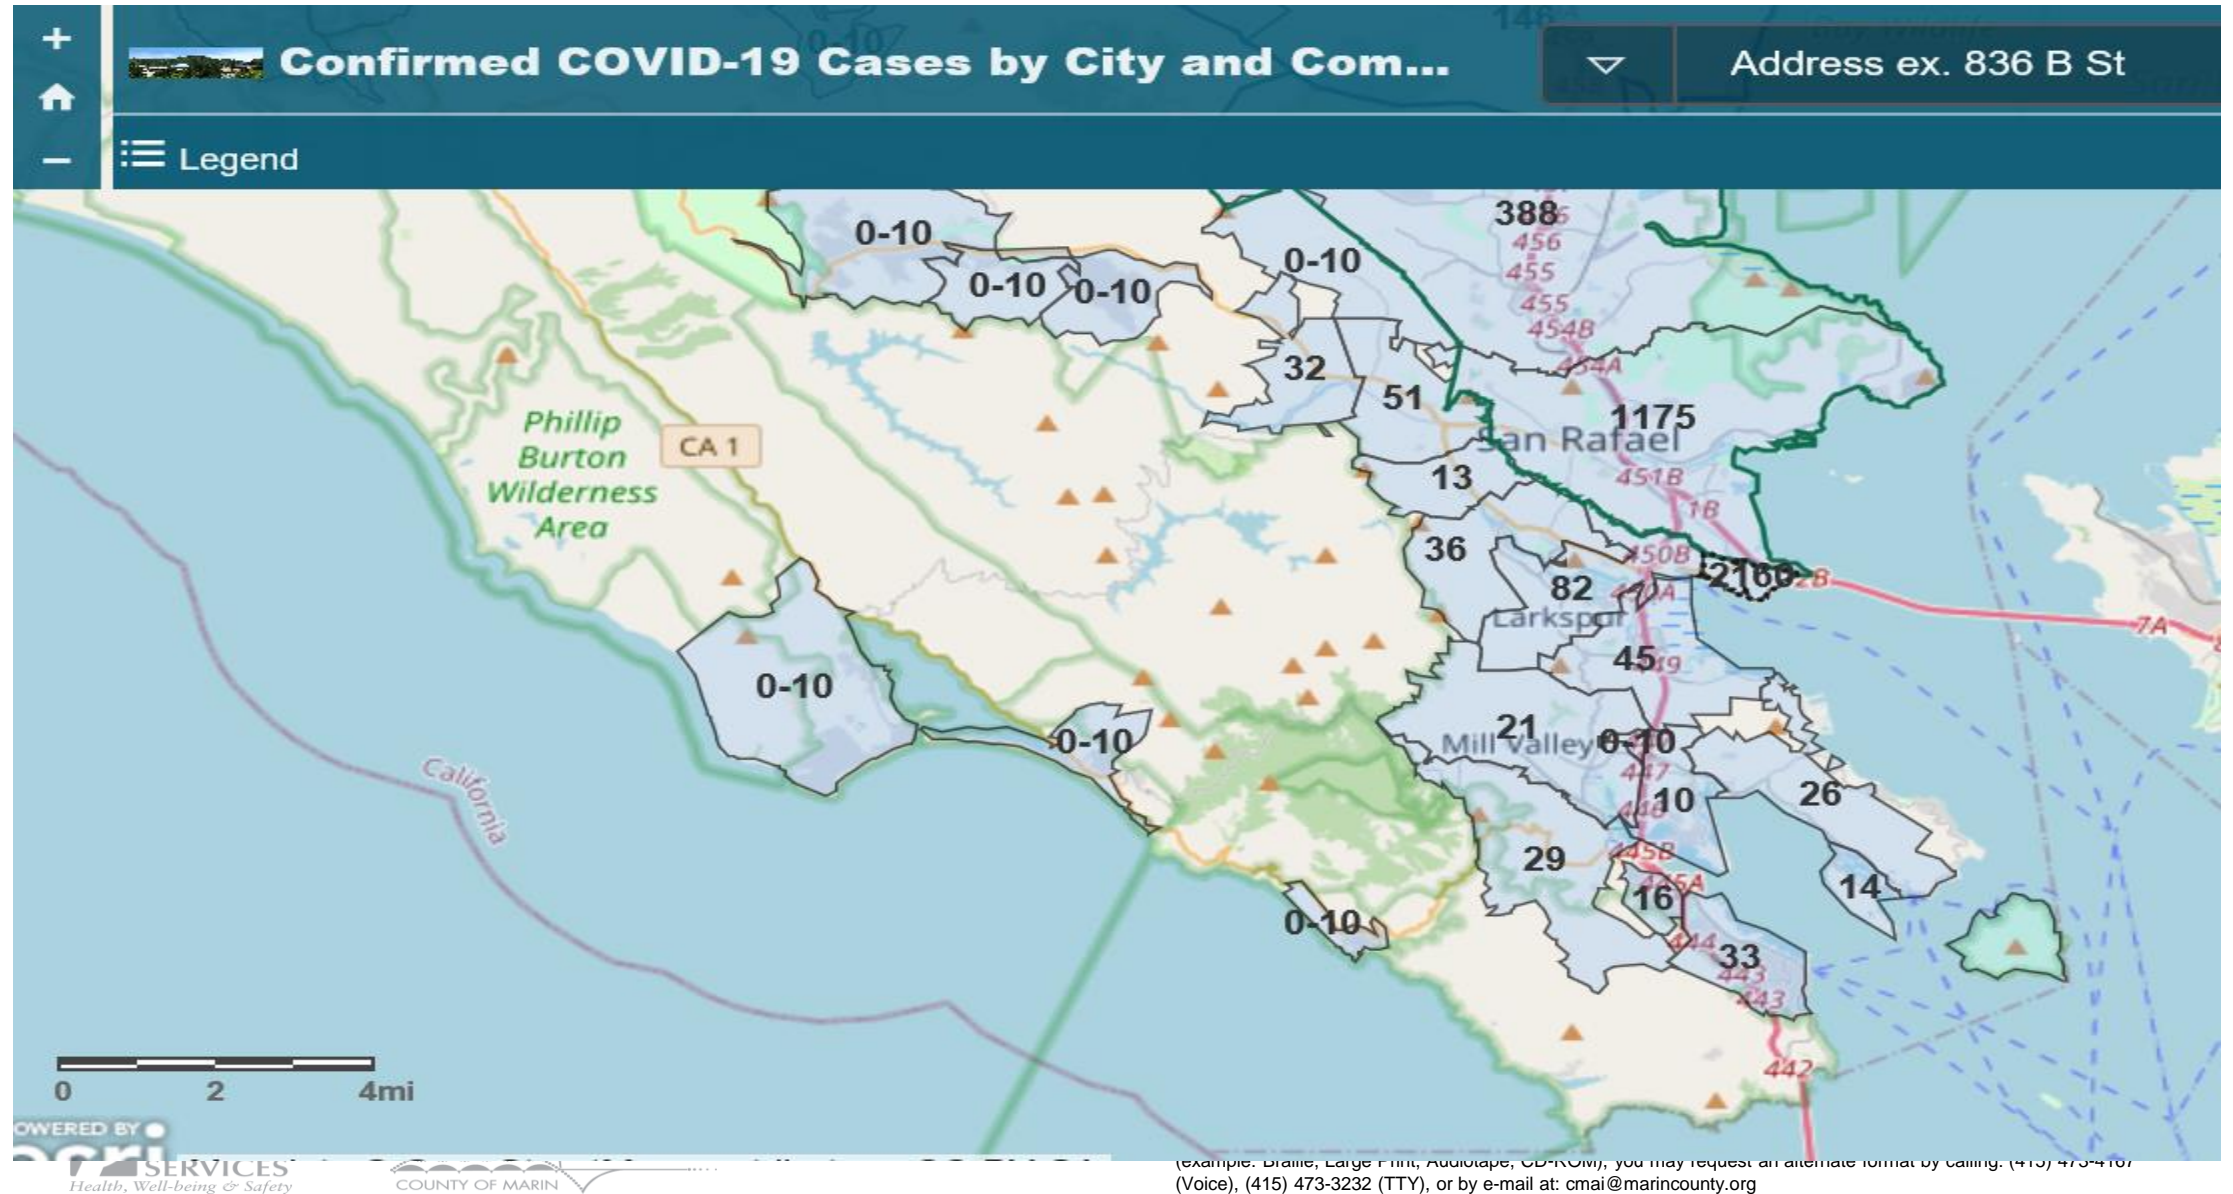

This chart shows the daily number of newly reported cases (positive test results) among Marin County community residents (does not include San Quentin inmates) *by result date*. This corresponds to the daily increase in cases in the cumulative line chart at the top of this site. If an individual was tested on May 20 and Marin HHS received a positive result for that test on May 24, their positive result would be reflected in the chart above (Daily Count of Positive Results by Test Date) on May 20, whereas on this chart (Daily Count by Result Date) the result would be reflected on May 24.

Note: positive cases are reported for Marin county community residents only. This chart corresponds to the daily increase of positive cases that can be viewed on the cumulative chart above.

Drop-in COVID-19 Testing for Restaurant Workers

Where: 1177 E. Francisco Boulevard

When: Wednesday, August 5th from 7 am -12 pm and 1 pm - 4 pm

Cost: Free

Steps Taken by MCHHS When an Employee is COVID-19 Positive

1. A case is identified
2. A MCHHS Contact Investigator contacts the case to gather information and among other things, identifies the employer of the case (if applicable)
3. If the case works at a residential facility for the elderly, an outbreak team responds to address the workplace exposure in this vulnerable population
4. If the case is employed outside the home and the CI is concerned about possible work exposure, the case information is sent to a Business Investigator
5. The Business Investigator contacts the business to inform them of their positive employee and guide them on next steps

Guidance on COVID-19 in the Workplace (continued)

When does this guidance apply?

This guidance is for when any staff:

1. has either a lab test confirmed case or healthcare provider diagnosed case of COVID-19 **and**
2. was at work 48 hours before symptoms started or if they have no symptoms, was at work 48 hours before receiving their positive test result.

Guidance on COVID-19 in the Workplace (continued)

What should the organization do?

- **Report:** Immediately notify any COVID-19 case to Marin Public Health at 415-473-2957 or to Covid19results@marincounty.org
 - **Maintain confidentiality:** Do not release the names of sick person or close contacts to anyone at the workplace, unless they give you permission.
 - **Identify and Quarantine close contacts:** Determine close contacts of the sick person and have them quarantine at home. Close contacts:
 - ❖ Are people who been within 6 feet of the sick person for more than 15 minutes
 - ❖ Should stay at home for 14 days from the day the sick person was last at work
 - ❖ We recommend close contacts be tested 5 days or later after last day of contact with case
 - **Persons who have tested positive can return to work if they meet these three requirements:**
 - It has been 10 days since positive test result or onset of symptoms
 - AND improvement in symptoms
 - AND no fever without the use of fever reducing medication in the past 24 hours
- MCPH does not recommend repeat COVID testing. We do not recommend requiring COVID-positive employees test negative for COVID-19 before returning to work.

Guidance on COVID-19 in the Workplace (continued)

- **Educate staff:** Provide staff with a printed copy of Home Isolation and Quarantine Guidelines (available in Spanish)
- **Monitor for symptoms:** All other employees who were at the physical workplace 48 hours before the sick person was sent home should monitor themselves for symptoms for 14 days from the last day the sick person was a work (see symptoms list below).

- ❖ fevers
- ❖ chills
- ❖ cough
- ❖ shortness of breath
- ❖ fatigue
- ❖ muscle or body aches
- ❖ headache
- ❖ new loss of taste or smell
- ❖ sore throat
- ❖ congestion or runny nose
- ❖ nausea or vomiting
- ❖ diarrhea

Guidance on COVID-19 in the Workplace (continued)

- **Institute cleaning and disinfection measures:** Ensure proper cleaning as recommended by the CDC at <https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html>
- **Ensure employees use prevention best practices to stop the spread of COVID-19:**
 - Wear a face covering properly (covering mouth AND nose) at all times
 - Frequent wash hands with soap and water for a full 20 seconds (preferred or use an alcohol-based sanitizer)
 - Avoid touching your face
 - Using a tissue or your elbow for coughs and sneezes – DO NOT use hand to cover
 - Keep social distancing (keep 6 feet away from others)

Preventing COVID in the Workplace

- Separate work stations by more than 6 feet
- Ensure good ventilation
- Require proper mask usage
- Consider staggering shifts
- Maintain 6 foot spacing during meals and breaks
- Consider outside of work contact like carpooling, employees living together

Where to get more information

- For the most up-to-date Coronavirus and COVID-19 information visit the CDC: <https://www.cdc.gov/coronavirus/2019-ncov/index.html>
- For up-to-date Marin information visit the Marin County COVID-19 Information Portal at **coronavirus.marinhhs.org**
- For information about reopening businesses and economic assistance visit <https://marinrecovers.com/>

Questions?

Thank you.

Encouraging Employees to Stay Home for Quarantine and Isolation

- Families First Coronavirus Response Act-requires small employers (<500 employees) to provide limited paid-leave benefits to employees affected by the coronavirus emergency
- California's COVID-19 Supplemental Paid Sick Leave Order- provides up to 80 hours of "COVID-19 Supplemental Paid Sick Leave" to defined food sector workers in businesses with > 500 employees
- Marin County Supervisors have allocated funds to a wage support program for low-income coronavirus carriers
