Marin County COVID-19 status update: April 4th, 2020

**COVID-19 activity in Marin:**
- Marin Confirmed Cases: 137
- Marin Deaths: 7
- Marin Persons Tested: 1,435
- Marin Hospitalizations: 16
- California Confirmed Cases: 12,850
- California Deaths: 289

To see a breakdown of confirmed cases by age or gender, visit Marin HHS’s data website. In addition, our surveillance team monitors respiratory illness activity and hospital visits. Tracking the total number of visits and those due to respiratory illnesses provides a situational awareness of current resource needs in our community, which helps advance policies to limit community spread and support our excellent healthcare partners’ capacity to respond. Visit the data website to learn more.

**Links and reminders related to COVID-19**
We are constantly updating our frequently asked questions (FAQs) based on new information as well as frequent questions we receive both in the Emergency Operations Center as well as through our COVID-19 call center.

Our COVID-19 information and resources webpage has a plethora of information and resources for our residents. A few of the resources and information pages to note are donations, individuals with disabilities, applying for public assistance (Medi-Cal, CMSP, CalFresh and CalWORKs), general coronavirus information and educational posters.

The Parks Closure Order was updated along with the Stay at Home Order on March 31st, 2020. They both contain a lot of new information. We created an executive summary that outlines the new Stay at Home Order and makes it a lot easier to digest.

We continue to see an influx of visitors driving to our parks and Open Space area to get outside during both the weekdays and weekends. While we encourage getting outside, please do so in your own neighborhood by non-motorized means. Walk or bike to a trail or open space, but please do not drive and park at one unless you are displaying valid disabled person parking placard or license plate on your vehicle. Only use your vehicle to travel for essential reasons as outlined in the Stay at Home Order.
A frontline perspective from our drive thru testing site
For your video update today, senior nursing students Adam and Milly share what it is like to work at the drive thru point of testing site in Marin County. They both work as part of the clinical team collecting samples from referred patients. They share some experiences working as a frontline healthcare worker.
